## ABOUT ME

Third-year Computer Science student building toward a career as a Full Stack Developer, with a primary focus on the MERN stack. Hands-on experience shipping projects including an AI-powered chatbot and a sports team management system, plus a completed full stack internship. Currently strengthening JavaScript fundamentals and DSA as the foundation for full stack readiness.

## EDUCATION

### Bachelor of Science in Computer Science (TYBCS) – Currently Pursuing

K.J. Somaiya College, Kopergaon

2024 – 2028 (Expected)

FYBCS SGPA: 9.45 (Sem 1) | 9.27 (Sem 2)

SYBCS results awaited

## PROJECTS

### Star AI – College Assistant Chatbot

Python | Flask | REST API | NLP

Developed and deployed an AI-powered chatbot that answers student queries related to college, events, and academic information.

- Built using Flask and Python with intent-based query handling.
- Deployed for real-time use by students.

### Team Star Management System

HTML | CSS | JavaScript | SQLite | Python

A complete web application to manage sports teams, tournaments, members, funds, and performance.

- Features: team management, match tracking, fund management, strategy discussions.
- Built with a clean and responsive UI.

### Personal Portfolio Website

Vite | Tailwind CSS | JavaScript

Personal portfolio website to showcase projects, skills, and experience.

- Modern UI with fast performance using Vite.
- In progress – deployment planned.

## INTERNSHIP

### Saiket Systems – Full Stack Internship

June 2025 – July 2025

## ACHIEVEMENT

### ★ First Prize Winner – Technofest (College Level Competition)

Developed and deployed an AI-powered chatbot and won first prize in Technofest.
